FOR RELEASE

Mom of Special Needs Child Publishes Memoir/Self-Help Book about their Transformation Using Spiritual Hypnosis and Healing.

NO STONE UNTURNED: How My Special Needs Child and I Transformed Against All Odds is the true account of never giving up hope. It begins when her son was born at twenty-nine weeks with a devastating prognosis: stage four brain hemorrhage with hydrocephalus. She was told, "If he survives, it is likely he will have severe brain injury and probably never walk." Debra believed in possibilities and the power of the mind to untap his unused portion of his brain to compensate. Early researching and trials of various techniques and modalities from different cultures, centuries, and belief systems guided their decades long journey.

It is also a story of honest struggle and pain, and how they moved forward to acceptance, triumph and joy.

NO STONE UNTURNED is not a how-to manual. It is a personal look into the author's private and complex world of being a special needs family, and how their beliefs and choices hurt and healed them. Visit www.debrataubenslag.com to receive a free meditation and intuitive self-transformational quiz, including an excerpt from **NO STONE UNTURNED** now!
